

COMPASS 1 GR SE

GRINDER, TAMPER & FILTER

COMPASS 1 GR SE

GRINDER, TAMPER & FILTER

As part of this exclusive equipment setup package, Café Mystique offers commercial espresso and tea equipment on loan at your location, provided that you are fully and solely supplied by us for your coffee and tea needs. To qualify, a minimum monthly order of 10 kg of espresso coffee is required. From there, your purchases of teas, cups, and other applicable items contribute toward reaching this monthly commitment. Included in this partnership are two complimentary preventive maintenance services per year, covering the mandatory bi-annual upkeep of the machines—ensuring optimal performance and peace of mind at no additional cost. Lastly, all daily cleanings must be performed by customer, based on procedural instruction provided by supplier.

The Set-Up:

The single-group SE is built for a medium-volume use, with a capacity of up to 100 drinks per day. It runs on a 220V power supply and includes a TFT display for shot timing and dose adjustment, along with a native P.I.D. back-end programming. includes soft-infusion brewing and a tilt steam lever.

- Fiamma Compass 1 Group SE
- M80 T Grinder
- Macap Manual Auto-Tamper
- Vivreau Maeva Water Filtration System

Additional Features at Charge:

- Milk Pitchers
- Knockbox Drawer
- Daily Cleaning Products

We reserve the right to change the equipment selection based on availability.
