

Cafe Espresso 2.0

NEWCO

CAFE ESPRESSO 2.0

ONE CUP AT A TIME

The Café Espresso 2.0 is a fully automatic bean-to-cup espresso machine designed to deliver rich, café-quality beverages with ease. Compact and stylish, it's built for high performance in commercial settings such as offices, hotels, and self-serve stations. Its intuitive interface, durable components, and ability to handle peak demand make it a reliable choice for consistent coffee service throughout the day.

Newco's Innovative and Exclusive Solutions:

- Compact design ideal for busy countertop environments
- Ceramic flat-type blade grinder ensures uniform coffee extraction
- Touchscreen for customizing strength, volume, and milk texture
- Height of 24" (28" with clearance), width of 16", depth of 20"
- 110v plug 15 amp.
- Cleaning guidance displayed directly on the interface for simple upkeep
- Handles peak-hour demand without compromising quality
- Compatible with external milk thermos

Inside, the Café Espresso 2.0 Features:

- Two main components: one coffee bean container and an internal water tank
- 7" full-color touch display: user-friendly navigation
- Adjustable drink settings including temperature, size, and milk foam
- Adjustable dispenser height fits espresso cups to large latte mugs
- Offers 15 beverage types
- Hourly capacity: approximately 50 different beverages
- Requires fresh milk

Additional features:

- Filtration system
- Water connection
