# CAFE ESPRESSO 1.0

INNOVATIONS 4U!

The ABS Espresso 1.0 is a commercial-grade espresso machine engineered for performance and durability in professional settings. Designed for straightforward use and consistent espresso brewing, this machine is ideal for offices and service counters where simplicity, speed, and reliability are key.

## **ABS's Practical and Functional Solutions:**

- Compact, space-saving design that fits comfortably on most countertops
- Engineered for consistent espresso delivery with each use
- Straightforward mechanical interface for easy operation
- Minimalist design supports long-term durability and ease of use
- Compatible with external milk thermos
- Height of 24" (28" with clearance), width of 12", depth of 17"
- 110v plug 15 amp.

## **Inside, the Espresso 1.0 Features:**

- Robust internal brewing system for reliable espresso shot production
- Offers 6 beverage types
- Hourly capacity: approximately 30 different beverages
- Two main components: one coffee bean container and an internal water tank
- Adjustable dispenser height fits espresso cups to large latte mugs
- Requires fresh milk

## **Additional features:**

- Filtration system
- Water connection
- Possibility to adapt to lower height of 16" (20" with clearance)
