

Model X800-UL

**EXCELLENCE IN  
EVERY CUP AND SCENARIO**

CVS

Hotel

Restaurant

Office

Café Bar

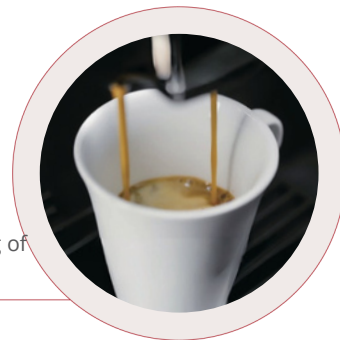

Bakery

## GOLDEN EXTRACTION FOR EVERY CUP

Stable 9 bar pressure reaches gold extraction through the anti gravity brewing system for every cup.

## HIGH-ACCURACY GRINDING SYSTEM

Uniform particle control (UPC) system ensure precise grinding of every bean.

## EASY OPERATION

10.1" touch screen with UX awarded UI 2.0, convenience at Your Fingertips.

## Smart IoT Solutions

Manage your business online, anywhere, anytime with Coffee Cloud (optional). The comprehensive digital service solutions minimize labor costs with data safety first.

## Cups per hour (DIN18873-2 )

Espresso

**105**

Americano

**75**

Hot Water

**60**

Hot Chocolate

**70**

## Technical data

|                     |                                                          |
|---------------------|----------------------------------------------------------|
| Voltage / Frequency | 120V / 60 Hz                                             |
| Electric current    | 11 A                                                     |
| Power               | 1200 W                                                   |
| Bean hopper         | 2*1000 g (500 g)                                         |
| Powder hopper       | 2*1200 g (500 g)                                         |
| Net weight          | 29.5 kg                                                  |
| Screen type         | 10.1" touch screen                                       |
| Dimensions(D*W*H)   | 560mm*380mm*670mm (540mm)                                |
| Grinder burr type   | 64mm metal flat burr                                     |
| Brewer capacity     | 6~16 g                                                   |
| Boiler quantity     | 1 * 0.7 L                                                |
| Water pump          | 2 electromagnetic pumps                                  |
| Noise level         | ≤70dB                                                    |
| Water supply        | 4 L tank water / fixed water<br>optional: barreled water |
| Drip tray capacity  | 2 L                                                      |
| Grounds container   | 45 cakes                                                 |
| Coffee spout height | Level 1=100 mm, Level 2=160 mm                           |

## Features

|                         |          |
|-------------------------|----------|
| Separate hot waterwand  | Yes      |
| Unlimited DIY beverages | Yes      |
| Removable brewer design | Yes      |
| MDB payment Digital     | Optional |
| service (IoT)           | Optional |
